LASKER, STEINITZ AND PILLSBURY TO PLAY AT BUDAPEST.

A NEW PLAN OF PRIZE DISTRIBUTION—FEIBEL WINS THE METROPOLITAN CHAMPIONSHIP—SHOWALTER AND PILLSBURY LIKELY TO MEET—GAMES AND CORRESPONDENCE.

On Thursday news reached this city that the international chess tournament, scheduled to begin on October 1, has been postponed to the Monday following that date, and it is also considered certain, to judge from letters at hand, that the trio of experts—Lasker, Steinitz and Pillsbury—will be in it at Budapest. What the telegraph and correspondence in these letters failed to give is the list of other probable competitors. Inasmuch as Tarrasch, Tschigorin and other players have promised to compete in the Hungarian metropolis, Charousek, Maroczy and many representatives of the Vienna school will be present in addition to Janowski, of Paris; Teichmann, of London, and probably Burn, of Liverpool, the chances are that the coming affair will be as important as the Nuremberg tourney, the more so as the winner, in addition to the money prize, will receive the \$800 trophy given by the Austrian Emperor.

London papers add to the announcement that the winner of each game will receive fifty dollars, and that no prizes, such as were given in previous tournaments, will be distributed. Of course the winner of the greatest number of games will receive the Emperor's prize.

Through the efforts made by The Tribune, there is now a prospect of a Pillsbury-Showalter match. The former is willing to play the Kettukind for \$100 a side, and it is expected that the match will come off soon after Pillsbury's return from Europe.

On Friday evening Dr. O. P. Honegger beat Raubitschek in the final game of the championship tournament of the Metropolitan Chess Club, and the contest resulted, therefore, as follows: Feibel wins first prize and the championship; Honegger takes the second prize and Raubitschek the third.

The City Chess Club announces a handicap rapid transit tournament for Wednesday. The contest will be conducted on entirely novel lines. All players will be engaged in three rounds, and the team making the score will win the prize. An extra prize will be given for the best individual score. The teams will be drawn by lot.

Appended are two interesting games. The first, says "The Standard," occurred in the Hungarian correspondence tourney, of which Herr Charousek will win the first prize, and Herr Maroczy the second. The second game is highly instructive. White sacrificing a rook in the middle of the board, as shown in the analysis. A variation given by us, however, proves White to have had a forced win, without the immediate sacrifice.

EVANS GAMBIT DECLINED.
